About This Game

Erannorth Reborn is a Rogue-lite, Deck Building RPG game. You take on the role of a supernatural creature (or a human with supernatural abilities), as he or she struggles to survive through a relentless pursuit from the Order of Light.

Deep Character Customization

Create your character by mixing the different attributes and abilities of 9 Races:

- Human
- Vampire
- Lycanthrope
- Demon
- Nephilim
- Sylph

-
- Undine
 - Ifrit
 - Nymph

with those of 15 Classes:

- Mercenary
- Shadow
- Hunter
- Mystic
- Animist
- Exorcist
- Necromancer
- Witch
- Death Knight
- Inquisitor
- Illusionist
- Blood Mage
- Warlock
- Spelldancer
- Runecaster
- Customize your attributes to specialize in different types of Damage
- Acquire powerful passive bonuses and perks.

Build & Adjust your Deck freely

- Adjust your Deck anytime, freely. Add and Remove Racial & Class skills you learn and unlock as you play, unique Actions you find in Forgotten Grimoires as well as Consumable Items, and create the ultimate deck. Upgrade non-Skill cards into Skills using Tokens, to make them available any time you need them.
- Experiment & use different Action Card combinations to overcome hordes of unique enemies. Each with different Damage type resistances and vulnerabilities.

-
- Utilize hundreds of Action Cards composed by over 80+ unique effects of different philosophy & complexity. Each Race & Class combination will give you new and unique ways and game play options as you deal with your obstacles.
 - Upgrade your Cards to stronger versions simply by using them.

Grind with respect to your time

- Earn incrementally more Tokens to Unlock new Races & Classes and Permanently gain Mastery with a Race or Class, each time you defeat a Boss and the longer you survive. Gain extra if you complete the run, and choose exactly which Class or Race you want to unlock next.

Full Modding Support

- Intuitive modding that doesn't require any coding or programming skills.
- Edit every Card, Enemy, Class & Race to your liking and even add your Own Enemies, Action Cards, Races, Classes, Skills & Perks simply by editing plain text files. [Check out the official Modding Guide for more details](#)
- Whether it's a few additions or a total conversion you can do it!
- Install/Uninstall/Activate & Deactivate mods with the Built in Mod Manager.

Very confusing gameplay, progression seems strange through each run-through. Things like alternate paths never really explained, and it seems like you can easily get caught in endless loops. This game is poorly optimized, I say this because it is literally the only game that causes my 1080 TI GPU to go over 60% load. Otherwise it is an okay game.. It's kind of neat, but it's a bit too random and a bit too simple. Lots of things that are just like "do 3 to 6 damage with a chance for double damage" which mean that you can't really tell how your turn will go but don't make you have to think about it. Sometimes you traipse along on a run, curbstomping everything, until you run into one encounter that just obliterates you while you're still playing your whole hand every turn.. Indie game. A deck building card battle rogue like!

A SINGLE developer who is highly committed. +1

Highly moddable too.. Better artwork than similar games. Plenty of race and class combos. Deck can be modified to make each game feel different and provide meaningful decisions.. I really like this Slay the Spire inspired rogue like deck building game. The twist compared to other games of the genre is that you can change your deck any time you want and move up to 3 copies of any card you unlocked during a run in and out. So deck building is a bigger part of this game compared to others. The game plays pretty well for an early access title, though there are some minor issues e.g. like not seeing your whole hand (Edit: without scrolling) when it gets too big. The different races and classes seem to offer a lot of variety and the dev is active and responsive. So I recommend buying this game even in it's current state to anyone who likes rogue like deck builders.. You guys really need to get an actual art team and/or put forth some cash to commission an artist. Please get rid of the Daz(or w/e they are) models.. While still rough around the edgeds and obviously early-access, the dev is very listening and working hard, and the game is improving fast...

I have no doubt, that Erranorth is a jewel in the making...
