Tracklist:

1. The 5d3b920ae0

Title: Kholat: Original Soundtrack

Genre: Adventure, Indie

Developer:

IMG.N.PRO

Publisher:

IMG.N.PRO

Release Date: 17 Jun, 2015

English

kholat original soundtrack

A high-quality and undeniably moody orchestral score, at a perfectly reasonable price. No idea what's up with that cheesy pop ballad near the end, though. Verdict: 9/10. (PS If you enjoyed this review, feel free to check out my two Curator pages: <http://store.steampowered.com/curator/9284586-ReviewsJustfortheHELLofit/u200b> <http://store.steampowered.com/curator/10868048-Truly-Horrible-Horror-Games/?appid=398210u200b> Cheers!). This is a marvelous collection of soundtracks. They've been created by Arkadiusz Reikowski and IMG.N.PRO! I will do some pros and cons for the Soundtrack PROS -Great composition of songs -Half of them are tense and the other half is relaxing -You can listen to them when doing anything really -Great artists have collaborated with IMG.N.PRO to make perfect soundtracks for their game CONS -I couldn't find the playlist on Steam Music, so I had to go to the folder where the game was installed and then listen to the whole playlist I recommend this Soundtrack.
